PARTICIPANTS: See List Attached

DATE AND TIME: July 1, 1982, 2:35 p.m.

PLACE: Ops Center Conference Room 7516, State Department

SUBJECT: SIG Meeting on Transfer of Strategic Technology, July 1

SUMMARY OF CONCLUSIONS

The SIG convened to discuss the draft terms of reference and to begin substantive work on the agenda circulated June 17. The Chairman opened with a summary of agency positions on the TOR, noting that Commerce on June 30 had proposed new language which was as yet unclear with other participants and which the Chairman wished to clarify further with Under Secretary Olmer. The Chairman deferred tabling proposed amendments to the TOR for SIG consideration until Commerce's input could be fully taken into account.

The CIA briefed the SIG on its collection and coordination efforts and on the work of the Technology Transfer Intelligence Committee (TTIC). Justice briefed on its enforcement coordination efforts. Customs briefed on Project Exodus.

The Chairman then addressed the agenda items for discussion: Versailles follow-up, the technology transfer problems in Japan, third country technology transfer controls, COCOM status, the matter of extradition treaties and mutual legal assistance agreements, and an improved interagency communication system. These were briefly discussed and it was decided in all cases to develop more detailed information through taskings as shown below.

ACTION REQUIREMENTS

1. Versailles follow-up: The EDAC was requested to report at the next meeting on the impact of the June 18 oil-gas sanctions decision on our technology transfer efforts in Europe.

2. Japan: TTIC was requested to provide a detailed intelligence community assessment of the technology transfer problem in Japan, to include Japanese subsidiaries outside Japan. A target was set for mid-October.

NOTE: Agencies wishing to contribute to this study should coordinate their comments as soon as possible through Jerry Leach or Bill Rennagel at 632-4231.

3. Third Country Technology Transfer Controls: The EDAC was requested to report on the scope of the problem by September. CIA has a study in progress and offered to assist the EDAC in mapping out its report.

4. Informal status of COCOM: EDAC in cooperation with DOD was requested by the next meeting to analyze the alternatives and recommend a course of action regarding the future status of COCOM.

5. Extradition Treaties and Mutual Legal Assistance Agreements: SIG participants were requested to recommend to Justice's Office of International Affairs (Michael E. Abell, 724-7600) and to the Legal Affairs bureau in State (T. Michael Peay, 632-7545) key countries with which to begin work to improve informal international cooperation in these two areas. A follow-up report will be tabled at the next meeting of the SIG.

6. Interagency Communications Systems: DOD was asked to follow up its suggestion that interagency communications regarding technology transfer be modernized and made compatible. A survey of existing data processing systems will be needed as a first step. A status report was requested for the next SIG meeting.

7. The Chairman agreed to a Defense suggestion that the SIG consider at a future meeting the potential linkages between technology transfer cooperation and other defense-related cooperative ventures with friendly states.

The next SIG meeting will be scheduled during the first ten days in August.
